Directions for Use

Feed Mix Cubes 14 is designed to supplement protein, energy, vitamins, and minerals to the nutrients in available forage.

Unlimited roughage in the form of hay or pasture should be provided.

Feed at a rate of 4 to 6 pounds per head per day, depending on forage quality and stage of production.

Additional mineral may need to be supplemented depending on quality of forage.

Fresh, clean water should be available at all times.

Contact your feed dealer for more information.

Caution

Do not feed to sheep due to high copper levels.

Manufactured by:

414 7th St W
